

Prison Break

How to join in:

You will need to watch the video on our YouTube channel which should be self explanatory. When each challenge has been explained you will need to pause the video while the children undertake the challenge. Once you are satisfied that they have completed it you can press play. It should take about 30-40 minutes depending on how quickly they do each challenge.

The first challenge will require you to print out the pin the tail on the donkey resources attached, or you may want to draw out a donkey on a larger piece of paper. You will also need to have a blindfold to hand.

It would be helpful to have some paper, a glue stick, and a few pencils to hand throughout. But none of the other challenges require any extra preparation on your part just pausing the video for each challenge and starting it again when you are satisfied it's complete.
